PREMIUM CARE

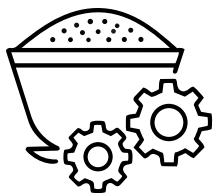

RELIABLE SPARE PARTS FOR EVERY NEED IN THE CERAMICS INDUSTRY

Since 2015, Premium Care has been supporting companies by supplying **line end consumables**, distinguishing itself through **reliability and customer focus**. Glues and waxes, polypropylene and polyester straps, shrink-wrap, stretch plastic film and stretch hoodhods are the main solutions for optimizing every stage of packaging.

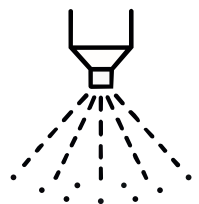

Among its key services, the **Spare parts department** is a major strength of the company. Thanks to its accumulated experience and constant dialogue with customers and partners, Premium Care has developed a **spare parts service specializing in the supply of components for the ceramic industry**, capable of responding promptly and efficiently to every production need.

We rely exclusively on trusted partners and certified manufacturers to offer high-quality, original, Made in Italy spare parts, ensuring the efficiency of existing systems, consistent performance, and maximum operational continuity.

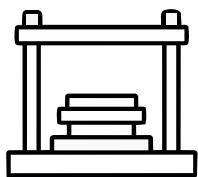

RAW MATERIAL & BODY PREPARATION

- Alumina grinding ball
- Alumina & rubber linings
- Raw materials
- Slip Pump
- PPB Pumps spares
- Membrane

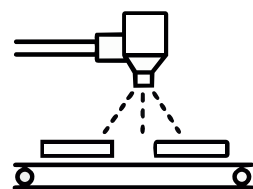

SPRAY DRYER

- Spray Nozzles complete set
- Nozzles
- Burners
- Temperature & Pressure sensors

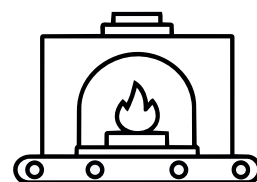

PRESS & DRYER

- Upper and lower punches
- Mould parts
- Hydraulic seals, valves, pumps
- Hydraulic oil
- Oil filters
- Hydraulic bag accumulators
- Scrapers
- Rollers
- Bearings
- Fans
- Burners
- Temperature sensors
- Gas valves

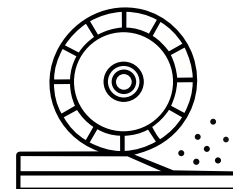

GLAZING LINE

- Pumps
- Diaphragms
- Valves
- Bell Applicators
- Nozzles in tungsten, diamond, hybrid
- Discs
- Scrapers
- Spray Guns
- Cabin Airless
- Vibrating Screens & mesh
- Pulleys
- Pipe
- Printheads
- Degasser
- Encoders
- Power supplies
- Sensors
- Ink
- Ink Filters
- Tubing
- Ink tanks
- Screen printing meshes
- Blade

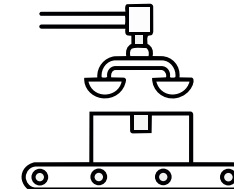

KILN

- Silicon carbide Rollers
- Springs
- Burners
- Gas Valv
- Pressure regulator
- Refractory Materials
- Thermocouples
- Pressure switches
- Valves & Sensors
- Encoders
- Fans
- Filters kiln
- Temperature sensors

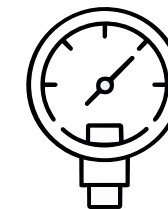

SORTING, GRINDING & SQUARING, FINISHING

- Spindles
- Diamond Tools
- Diamond grinding wheels
- Milling cutters
- Diamond discs
- Abrasive Tools
- Polishing Brushes
- Diamond blades
- Vacuum cups, pumps, filters

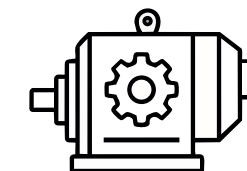

PACKAGING LINE

- Vacuum cups
- Conveyor, Timing Belts
- Pipes, Hoses
- Photoelectric sensors
- Glue
- Wax
- Glue Applicator
- Printheads
- Solvents for clean

LABORATORY EQUIPMENT

- Laboratory sieves & mesh
- Laboratory mixers
- Laboratory hydraulic presses
- Pressure gauges
- Viscosity & density cups
- Jars
- Flexural strength testing machine
- Abrasion tester
- Water absorption tester
- Calipers
- Digital micrometers
- Thickness gauges
- Precision balances
- Moisture analyzers
- Bullers rings
- Calibration rings
- Gloss meters
- Colorimeters
- Spectrophotometers

SPARE PARTS REQUIRED IN ALL PRODUCTION SECTORS

- Laboratory sieves & mesh
- Laboratory mixers
- Laboratory hydraulic presses
- Pressure gauges
- Viscosity & density cups
- Jars
- Flexural strength testing machine
- Abrasion tester
- Water absorption tester
- Calipers
- Digital micrometers
- Thickness gauges
- Precision balances
- Moisture analyzers
- Bullers rings
- Calibration rings
- Gloss meters
- Colorimeters
- Spectrophotometers

TRACEABILITY, FLEXIBILITY AND PUNCTUALITY IN SPARE PARTS SHIPMENTS

Premium Care provides a **dedicated logistics service for spare parts**, designed to ensure availability, fast delivery, and operational continuity. Each order is handled according to the customer's specific needs, from a single component to more complex shipments, with transportation solutions by **land, air, and sea**.

SHIPPING OF SINGLE PACKAGES

SHIPPING BY AIR

GROUPAGE SHIPPING

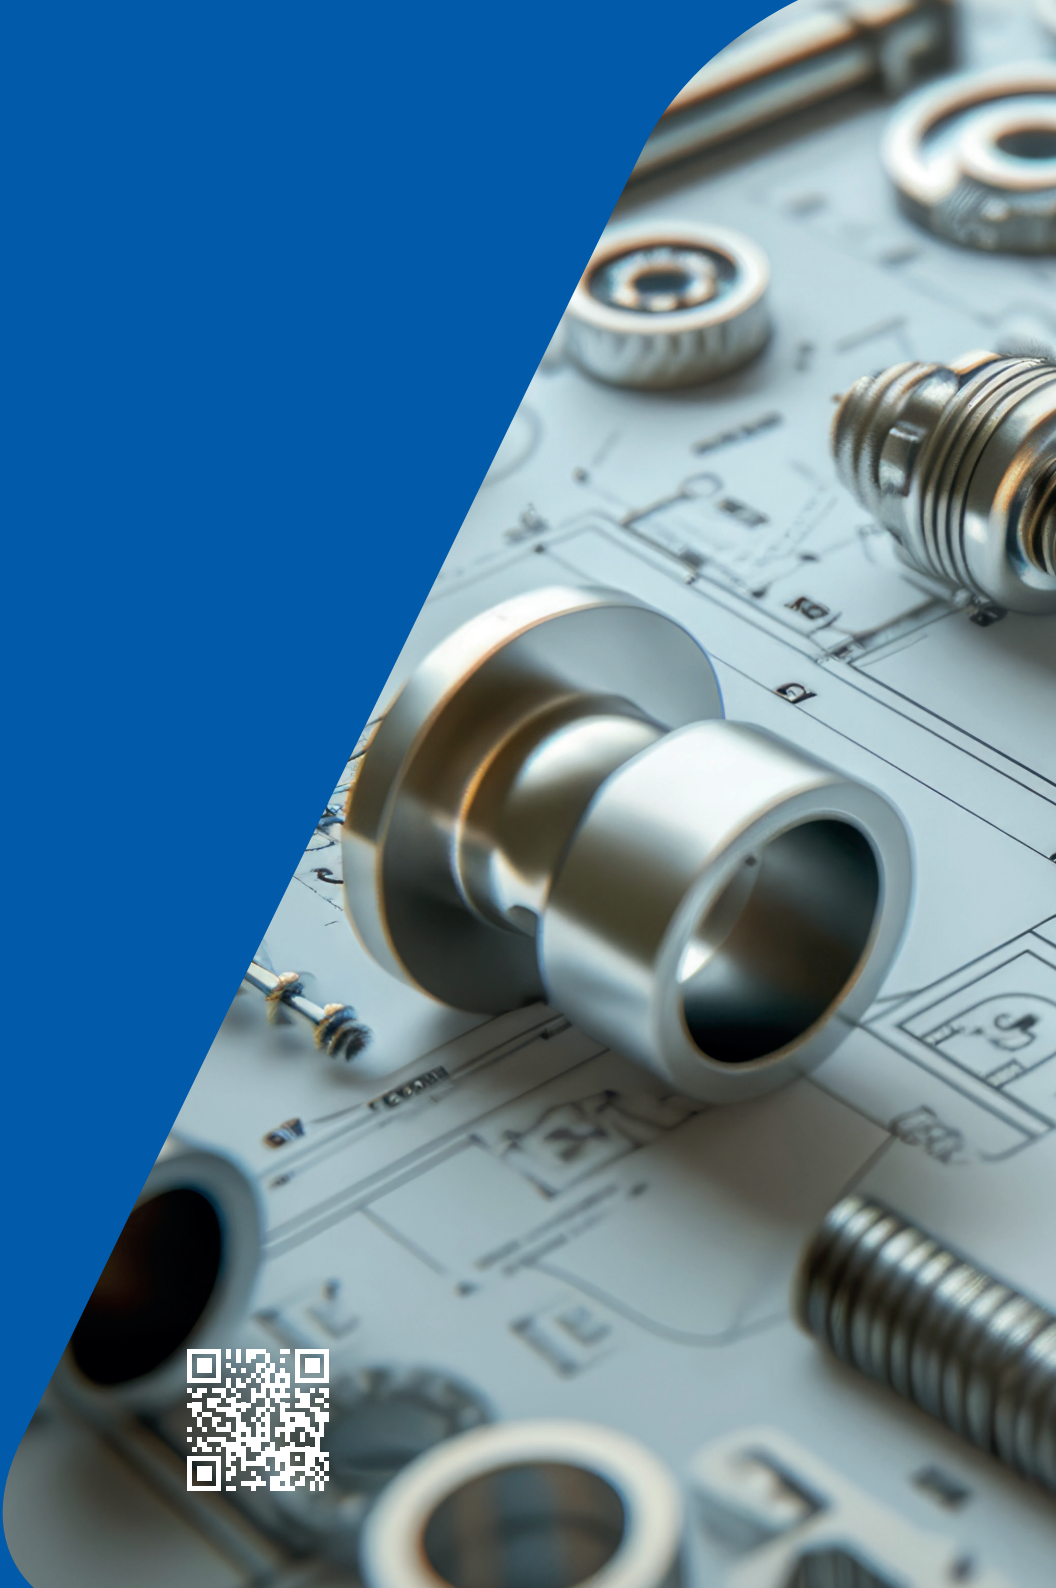

SHIPPING BY SEA

PREMIUM CARE

Thanks to **specialized logistics partners and an international network**, Premium Care ships spare parts worldwide, handles the necessary documentation, and provides support for customs procedures. Traceability, flexibility, and punctuality are hallmarks of every shipment, reducing downtime and ensuring the customer receives **the right spare part exactly when it's needed**.

A technical drawing of mechanical parts, including a large cylindrical component and a smaller threaded part, is shown on the right side of the image. The drawing is overlaid on a blue background that features a diagonal split. The left side of the blue background is a solid dark blue, while the right side is a lighter blue with a white diagonal line running from the top right corner towards the center. The technical drawing is a detailed line drawing of a mechanical assembly, showing various components and their relationships.
